NEUROSCIENCE LETTERS

Vol. 179 Nos. 1,2 CONTENTS SEPTEMBER 26th, 1994

(Cited in Biological Abstracts (BIOSIS), Chemical Abstracts, Current Contents/Life Sciences, Excerpta Medica (EMBASE), Index Medicus, PASCAL M and Science Citation Index)

Guidelines for the Submission of Manuscripts v

Macro-EMG and motor unit recruitment threshold: differences between the young and the aged
Y. Masakado, Y. Noda, M.-a. Nagata, A. Kimura, N. Chino and K. Akaboshi (Japan) 1

Uncoupling of the pineal melatonin synthesis of rats from the circadian regulation
M.-L. Laakso, T. Hätönen and A. Alila (Finland) 5

Nitric oxide synthase inhibitors prevent *N*-methyl-D-aspartic acid-induced penile erection and yawning in male rats
M.R. Melis, R. Stancampiano and A. Argiolas (Italy) 9

Increased expression of *bcl-2* immunoreactivity in the developing cerebral cortex of the rat
I. Ferrer, A. Tortosa, E. Condom, R. Blanco, A. Macaya and A. Planas (Spain) 13

The pyrimidine derivative BW 1003C87 protects against excitotoxic lesions induced by kainate in the rat striatum
C.R. Moncada, B. Arvin and B.S. Meldrum (UK) 17

The $GABA_A$ receptor antagonist picrotoxin induces a 'pain-like' behavior when administered into the thalamic reticular nucleus of the behaving rat: a possible model for 'central' pain?
J.-L. Olivéras and J. Montagne-Clavel (France) 21

Are humans able to voluntarily elicit maximum muscle force?
J.J. Dowling, E. Konert, P. Ljucovic and D.M. Andrews (Canada) 25

Electrophysiological evidence for projections of myelinated and non-myelinated primary vagal afferents to the rat insular cortex
S.-I. Ito (Japan) 29

C mechanical nociceptive neurons in the crotaline trigeminal ganglia
S.-i. Terashima and Y.-F. Liang (Japan) 33

Hydroxyl radical generation and nitric oxide synthase activity in Fisher 344 × Brown-Norway F1 rat brain
C.-C. Lai, P.K. Andrus and T.H. Chiu (USA) 37

Glutamate-induced deporalization in earthworm ventral nerve cord
K. Oka, H. Ogawa and S. Fujita (Japan) 41

Calcium wave propagation in the giant axon of the earthworm
H. Ogawa, K. Oka and S. Fujita (Japan) 45

Neuropathological phenotype and 'prion protein' genotype correlation in sporadic Creutzfeldt–Jakob disease
R. de Silva, J.W. Ironside, L. McCardle, T. Esmonde, J. Bell, R. Will, O. Windl, M. Dempster, P. Estibeiro and R. Lathe (UK) 50

Penetration of interleukin-6 across the murine blood–brain barrier
W.A. Banks, A.J. Kastin and E.G. Gutierrez (USA) 53

Shortening of a severed squid giant axon is non-uniform and occurs in two phases
M.A. Todora, H.M. Fishman, T.L. Krause and G.D. Bittner (USA) 57

The adult human cerebellum is a target of the neuroendocrine system involved in the circadian timing
J.-D. Fauteck, A. Lerchl, M. Bergmann, M. Møller, F. Fraschini, W. Wittkowski and B. Stankov (Germany, Denmark, Italy) 60

Phenotypic changes of AADC-only immunopositive premammillary neurons in the brain of laboratory shrew *Suncus murinus* by systemic administration of monoamine precursors
N. Karasawa, R. Arai, G. Isomura, K. Yamada, K. Sakai, M. Sakai, T. Nagatsu and I. Nagatsu (Japan) 65

Excitatory somato-sympathetic reflexes are relayed in the caudal ventrolateral medulla in the cat
J. Zanzinger, J. Doutheil, J. Czachurski and H. Seller (Germany) 71

Divalent metals of myelin and their differential binding by myelin basic protein of bovine central nervous system
H.H. Berlet, H. Bischoff and F. Weinhardt (Germany) 75

Sex differences in the behavioural response to persistent pain in rats
A.M. Aloisi, M.E. Albonetti and G. Carli (Italy) 79

Sleep-associated variations in plasma renin activity and blood pressure in the rat
F. Obál Jr., L. Beranek and G. Brandenberger (Hungary, France) 83

Modulatory effect of plasminogen on NMDA-induced increase in intracellular free calcium concentration in rat cultured hippocampal neurons
K. Inoue, S. Koizumi, K. Nakajima, M. Hamanoue and S. Kohsaka (Japan) 87

Lidocaine protects hippocampal neurons against ischemic damage by preventing increase of extracellular excitatory amino acids: a microdialysis study in Mongolian gerbils
T. Fujitani, N. Adachi, H. Miyazaki, K. Liu, Y. Nakamura, K. Kataoka and T. Arai (Japan) 91

Suppression of suprachiasmatic nucleus neurone activity with a vasopressin receptor antagonist: possible role for endogenous vasopressin in circadian activity cycles in vitro
R. Mihai, T.S. Juss and C.D. Ingram (UK, Romania) 95

Functional coupling of the 5-HT_{2C} serotonin receptor to G proteins in *Xenopus* oocytes
Y. Chen, M. Baez and L. Yu (USA) 100

High activity of retinal *N*-acetyltransferase in the early development of the chick embryo: independence of lighting conditions
A. Espinar, C. Osuna, C. Feliu and J.M. Guerrero (Spain) 103

Stimulation of D_4-like dopamine receptor suppresses serotonin *N*-acetyltransferase activity but does not phase-shift the circadian oscillator in chick retina
J.B. Zawilska, (Poland) 107

MK-801 inhibits the induction of immediate early genes in cerebral cortex, thalamus, and hippocampus, but not in substantia nigra following middle cerebral artery occlusion
H. Kinouchi, F.R. Sharp, P.H. Chan, S. Mikawa, H. Kamii, S. Arai and T. Yoshimoto (Japan, USA) 111

Felbamate, an anti-convulsive drug, has anti-parkinsonian potential in rats
B.D. Kretschmer (Germany) 115

Day- and nighttime content of monoamines and their metabolites in the pineal gland of rat and hamster
B. Hermes, C. Hiemke and S. Reuss (Germany) 119

Atrial natriuretic peptide in the innervation of the bovine heart conduction system: relationship with substance P and autonomic innervation – immunohistochemical studies
M. Hansson and S. Forsgren (Sweden) 123

Phosphatidylethanol formation and degradation in brains of acutely and repeatedly ethanol-treated rats
C. Lundqvist, S. Aradottir, C. Alling, M.d.C. Boyano-Adanez and L. Gustavsson (Sweden) 127

Persistently enhanced ratio of NMDA and non-NMDA components of rat hippocampal EPSC after block of A_1 adenosine receptors at increased $[Ca^{2+}]_o/[Mg^{2+}]_o$
A. Klishin, N. Lozovaya and O. Krishtal (Ukraine) 132

Electrophysiological characteristics of locus coeruleus neurons in the Maudsley reactive (MR) and non-reactive (MNRA) rat strains
J.S. Verbanac, R.L. Commissaris, H.J. Altman and D.K. Pitts (USA) 137

NMDA receptor-mediated synaptic input to nitric oxide synthase-containing neurons of the guinea pig mesopontine tegmentum in vitro
R. Sanchez and C.S. Leonard (USA) 141

Noradrenaline reduces synaptic responses in normal and *tottering* mouse entorhinal cortex via α_2 receptors
E. Pralong and P.J. Magistretti (Switzerland) 145

Cu/Zn superoxide dismutase-like immunoreactivity in Lewy body-like inclusions of sporadic amyotrophic lateral sclerosis
N. Shibata, A. Hirano, M. Kobayashi, S. Sasaki, T. Kato, S. Matsumoto, Z. Shiozawa, T. Komori, A. Ikemoto, T. Umahara and K. Asayama (Japan, USA) 149

Rapid development of D_1 and D_2 dopamine receptor supersensitivity as indicated by striatal and pallidal Fos expression
G.J. LaHoste and J.F. Marshall (USA) 153

Expression of c-jun and neuronal nitric oxide synthase in rat spinal motoneurons following axonal injury
W. Wu, Y. Li and F.P. Schinco (USA) 157

Perchloroethylene exposure can induce colour vision loss
A. Cavalleri, F. Gobba, M. Paltrinieri, G. Fantuzzi, E. Righi and G. Aggazzotti (Italy) 162

Myomodulin application increases cAMP and activates cAMP-dependent protein kinase in the accessory radual closer muscle of Aplysia
S.L. Hooper, W.C. Probst, E.C. Cropper, I. Kupfermann and K.R. Weiss (USA) 167

Regulation of diacylglycerol kinase in rat brain membranes by docosahexaenoic acid
V.V. Vaidyanathan, K.V.R. Rao and P.S. Sastry (India) 171

Announcement 175
